2. Written consent of the assignee to correction of inventorship, along with a statement under 37 C.F.R. §3.73(b), establishing right of assignee to take action; and

01 FC:1464 130.00 DA

3. Statement pursuant to 37 C.F.R. §1.324(b)(1) of the non-joined inventor, Dermot Gately, that the error in inventorship occurred without deceptive intent on his part.

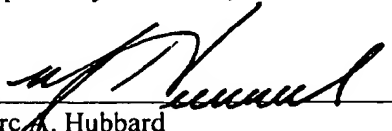

It is respectfully requested that, pursuant to 37 C.F.R. §1.324(b)(1), the Commissioner issue a certificate naming the actual inventors, which corrects the error of the nonjoinder of Dermot Gately, and that names Mr. Gately as a co-inventor of the referenced patent, along with Jeremy R. Lent, Mary Lent, Eric R. Meeks, Yinzi Cai, Timothy J. Coltrell, and David W. Dowhan.

Please take note that the referenced patent is the subject of claims of patent infringement made by NextCard, LLC in actions styled *NextCard, LLC v. The accused infringers have interposed to the claims the defenses of non-infringement, invalidity and unenforceability. However, no specific allegations of misjoinder or non-joinder of inventors has been plead or otherwise made by the accused infringers.

PETITION UNDER 37 C.F.R. §1.183

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Madam:

This Petition under 37 C.F.R. §1.183 accompanies a Petition for Correction of Inventorship of Patent under 37 C.F.R. §1.324(b) (the "Petition to Correct Inventorship") for correction of the error of nonjoinder of Dermot Gately as an inventor in the referenced patent.

The current assignee of 100% of the interest in the patent, NextCard, LLC, hereby petitions for a waiver of the requirement under 37 C.F.R. §1.324(b)(2) for a statement from currently named inventors agreeing to change inventorship, or stating that there is no disagreement in regard to the requested change.

In support of the petition, NextCard LLC would show the following:

1. NextCard, LLC is the current assignee of 100% of the interest in the patent, as evidenced by the Statement Under 37 C.F.R. §3.73(b), establishing the right of NextCard, LLC to take action, which accompanies the Petition for Correction of Inventorship. The inventor to be added, Dermot Gately, has assigned his entire interest in the patent, as evidenced by the assignment recorded at reel/frame 017154/ 0145 on February 10, 2006, to NextCard, Inc. All previously named inventors have assigned their respective interests to the predecessor-in-interest, and no longer have any interest in the patent, as evidenced by the assignment from the inventors to NextCard, Inc. recorded at reel/frame no. 009972/0717.
2. The addition of Mr. Gately as an inventor would, it is submitted, not prejudice the interests of the originally named inventors, as they retain no interest in the patent.
3. NextCard LLC consents to adding Dermot Gately as an inventor, as evidenced by the Consent of Assignee to Change of Inventorship in Patent Under 37 C.F.R. §1.324(b)(3) that accompanies the Petition for Correction of Inventorship.
4. Dermot Gately was added as an inventor in continuation application no. 10/386,390, now U.S. patent no. 7,143,063. Attached as Exhibit "A" is a copy of a Request Under 37 C.F.R. §1.48(a) to correct Inventorship and Petition Under 37 C.F.R. 1.183 To Waive Requirements of 37 C.F.R. 1.64, and accompanying papers, which were filed in the continuation application. Attached as Exhibit "B" is a copy of the Notice of Allowance, in which the request was granted. The continuation application has a substantially identical specification to that of the present patent, and the claims are directed generally to the same subject matter. Dermot Gately executed an inventor declaration referencing the continuation application, which was also signed by two of the six inventors. A copy of the inventor declaration is included in the papers attached as Exhibit "A".
5. The addition of Mr. Gately would be consistent with the inventorship of the continuation application and with the declaration Mr. Gately and two of the other inventors in the continuation application that, in effect, Mr. Gately was a co-inventor of the subject matter claimed in the continuation application. It is submitted that the subject matter claimed in the

present patent is substantially similar to the subject matter claimed in the continuation application.

6. In view of the facts, it is submitted that the statements of the remaining inventors are unnecessary.

For the foregoing reasons, NextCard, LLC respectfully petitions for waiver of 37 C.F.R. §1.324(b)(2).

The Director is hereby authorized to charge the fee under 37 C.F.R. 1.17(f) in the amount of \$400 to Deposit Account No. 07-0153. The Director is also hereby authorized to credit any overpayment or charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith.

REQUEST UNDER 37 C.F.R. 1.48(a) TO CORRECT INVENTORSHIP AND PETITION UNDER 37 C.F.R. 1.183 TO WAIVE REQUIREMENTS OF 37 C.F.R. 1.64

Mail Stop Petition
 Commissioner for Patents
 P. O. Box 1450
 Alexandria, VA 22313-1450

Dear Sir:

Enclosed herewith are the following: the executed Statement of Dermot Gately; a partially executed new Declaration and Power of Attorney, executed in parts; an Assignee's Consent to Change of Inventorship; and a Statement of William James documenting efforts to obtain the signature of co-inventors who did not execute the enclosed new Declaration and Power of Attorney. Please file these documents in the subject application.

Applicant hereby requests under 37 C.F.R. 1.48 (a), based on the above-referenced documents, that the inventorship of the above-captioned application be changed to add Dermot Gately as an additional co-inventor, in addition to the inventors listed in the original declaration.

The enclosed new Declaration and Power of Attorney has been executed, in parts, by co-inventors Eric R. Meeks, David W. Dowhan, and Dermot Gately. Jeremy R. Lent, Mary Lent, Yinzi Cai, and Timothy J. Coltrell have not signed the enclosed new Declaration and Power of

Attorney listing the original inventors and additionally Dermot Gately. Therefore, as suggested in MPEP 201.03, Assignee NextCard, Inc. hereby petitions the Director under 37 C.F.R. 1.183 to suspend the requirement of 37 C.F.R. 1.64 to the extent said rule requires in the context of the present request under 37 C.F.R. 1.48(a) that the non-signing co-inventors Jeremy R. Lent, Mary Lent, Yinzi Cai, and Timothy J. Coltrell re-execute an oath or declaration that includes the inventor requested to be added, Dermot Gately, along with the originally listed inventors.

MPEP 201.03 suggests that where, as here, the Assignee consents to the requested change of inventorship and the inventor to be added has executed the new oath/declaration and the statement that the inventor to added was not omitted through any deceptive intent on his/her part, a petition to suspend the rules with respect to non-signing co-inventors is grantable without a showing that the non-signing inventors were afforded an opportunity to sign the new oath/declaration. Therefore, it is believed that no further showing is required. However, in the interest of completeness, the accompanying Statement of William James describes efforts to obtain the missing signatures, which efforts have not been successful.

It is noted that NextCard, Inc. entered Chapter 11 (reorganization) bankruptcy on November 14, 2002, which bankruptcy was converted to a Chapter 7 (liquidation) bankruptcy on August 11, 2003. It is submitted that timely resolution of the present request and petition would be in the public interest by removing a potential obstacle to the sale or other disposition of the present application by the bankruptcy estate, facilitating ultimately final resolution of the estate and the associated matter pending before the bankruptcy court.

Enclosed is our Check No. 2168 for \$530.00 in payment of the processing under 37 C.F.R. 1.17(i) for the request under 37 C.F.R. 1.48(a) and the petition fee under 37 C.F.R. 1.17(f) for the petition under 37 C.F.R. 1.183. The Commissioner is authorized to charge any other fees that may be due to our Deposit Account No. 50-0685 (Atty. Dkt. No. NEXTP002C2).

4. I sent to co-inventor Timothy Coltrell, on February 1, 2006 by Federal Express to his last known home address and on February 2, 2006 by email, and requested that he sign and return a new declaration and power of attorney listing as inventors the inventors named originally and additionally Dermot Gately. Mr. Coltrell subsequently contacted me by email on February 2, 2006 and February 15, 2006 and indicated he would consider the papers and our request that he sign and return them; but to date, we have not received a signed new declaration from Mr. Coltrell.

Respectfully submitted,

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 3, 2006 has been entered.

Status of Claims/Amendment

This communication is in response request for continued examination filed March 3, 2006 to correct inventorship and applicant's specification after a notice of allowance was issued on November 30, 2005.

- Claims 1, 4, 5, 9 and 11 are amended below.
- Claims 2, 3 and 10 were previously canceled.
- Petition to correct inventorship has been submitted.
- The specification has been currently amended.
- Claims 1, 4-9 and 11 are allowed.

Inventorship

In view of the papers filed on March 3, 2006, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by addition of Dermot Gately to the list of inventors.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

Specification

As per Notice of Drawing Inconsistency with Specification dated February 6, 2006, applicant's March 3, 2006 amendment to include a brief description of Figure 10C in the Brief Description of the Drawings in the specification is entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William J. James (40,661) on September 29, 2005 at 1:40 p.m.

The claims have been amended as follows:

1. (Currently amended) A method of presenting a reason for the rejection of a credit application from an applicant comprising: electronically obtaining a factor from a credit bureau identified as influencing the FICO score assigned to the application by the credit bureau; using a computer processor to: map the factor identified by the credit bureau to an internal rejection code; determine whether the internal rejection code corresponds to a specific code or a general code; and change the internal rejection code to correspond to a specific rejection reason if it is determined that the internal rejection code corresponds to a general code and the specific

rejection reason is available; and providing a rejection reason corresponding to the internal rejection code to the applicant via a network; wherein the internal rejection code indicates the reason the credit application is rejected.

2. (Canceled)

3. (Canceled)

4. (Currently amended) A method of presenting a reason for the rejection of a credit application as recited in claim 1 further including electronically requesting an acknowledgement of the rejection from the applicant.

5. (Currently amended) A method of presenting a reason for the rejection of a credit application as recited in claim 4 further including electronically receiving an acknowledgement of the rejection from the applicant and ~~noting~~ recording that the acknowledgement was received.

6. (Original) A method of presenting a reason for the rejection of a credit application as recited in claim 1 wherein providing a rejection reason corresponding to the internal rejection code to the applicant further includes providing a web page to the applicant that includes the rejection reason.

7. (Original) A method of presenting a reason for the rejection of a credit application as recited in

claim 6 wherein providing a web page to the applicant that includes the rejection reason further includes providing an acknowledgement button to the applicant as part of the web page.

8. (Original) A method of presenting a reason for the rejection of a credit application as recited in claim 6 wherein providing a web page to the applicant that includes the rejection reason further includes providing an applet that communicates that the web page has been downloaded.

9. (Currently amended) ~~An~~ A system for presenting a reason for the rejection of a credit application from an applicant comprising: a communication interface; and a processor configured to: obtain a factor from a credit bureau identified as influencing the FICO score assigned to the application by the credit bureau; map the factor identified by the credit bureau to an internal rejection code; determine whether the internal rejection corresponds to a specific code or a general code; change the internal rejection code to correspond to a specific rejection reason if it is determined that the internal rejection code corresponds to a general code and the specific rejection reason is available; and provide a rejection reason corresponding to the internal rejection code to the applicant via the communication interface; wherein the internal rejection code indicates the reason the credit application is rejected.

10. (CANCELED)

11. (Currently amended) A computer readable medium having program code embodied therein for presenting a reason for the rejection of a credit application from an applicant comprising:

program code operative to obtain a factor from a credit bureau identified as influencing the FICO score assigned to the application by the credit bureau; program code operative to map the factor identified by the credit bureau to an internal rejection code; program code operative to determine whether the internal rejection corresponds to a specific code or a general code ; program code operative to change the internal rejection code to correspond to a specific rejection reason if it is determined that the internal rejection code corresponds to a general code and the specific rejection reason is available, and program code operative to provide a rejection reason corresponding to the internal rejection code to the applicant; wherein the internal rejection code indicates the reason the credit application is rejected.

Allowable Subject Matter

Claims 1, 4-9 and 11 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

As per claims 1, 9 and 11, and especially in view of applicant's arguments filed 23 May 2001, the closest prior art of record (WO97/22073 to Walker et al, 5,940,811 to Norris and 5,745,654 to Titan) taken either individually or in combination with other prior art of record fails to teach or suggest performing attribute tests to determine whether the result corresponds to an appropriate rejection reason, and if so, assigning the appropriate internal rejection code for the specific rejection reason and providing a rejection reason corresponding to the internal rejection code to the applicant. The closest prior art of record (Walker et al) teaches generally mapping a factor identified by the credit bureau to a general internal rejection code and providing a rejection of the application based upon a general reason for the rejection, however, does not teach performing an attribute test to determine if the result corresponds to an appropriate

rejection reason, and if so, assigning an appropriate internal rejection code for the specific reason for the rejection. Dependent claims 4-8 thus have all the limitations of claim 1 and are allowable for that reason.

For instance, the relevant portion of claim 1 as indicated above recites: "change the internal rejection code to correspond to a specific rejection reason if it is determined that the internal rejection code corresponds to a general code and the specific rejection reason is available; and providing a rejection reason corresponding to the internal rejection code to the applicant via a network; wherein the internal rejection code indicates the reason the credit application is rejected."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
